

Mike Rosenberg Band Release Debut Single - 2006-06-07

Benchmarking a new standard for singer/songwriters in the music industry, ie: music's emerging act, Mike Rosenberg Band released their debut single "Stray Dog" on Monday, June 5th.

Classic songwriting has always been about telling stories – Mike Rosenberg Band takes that narrative tradition and, with contemporary sounds and beats, tells stories for our time.

Stray Dog distills the collective influences and talents of the group, a fusion of modern studio wherewithal and truly organic songwriting. The whole track sits atop a bed of synths and electronic doodles, rolling forward with a cello line, finger picked guitar and restless brushes.

Mike Rosenberg adds his unique lyrics and beautiful vocal delivery, "Stray Dog" promises to be a prominent addition to the world of summer's essential sounds.
