

Robbie Williams Content On XBox Live Marketplace - 2007-04-24

RobbieWilliams.com and Xbox have teamed up to bring exclusive Robbie Williams content direct to the Xbox 360. Xbox users can now download videos and exciting Robbie extras straight to their consoles via Xbox Live's Marketplace.

Robbie is already a massive fan of Xbox, which became a downtime staple during his Close Encounters tour: 'I love playing Xbox at home and on the road', he said, 'Tiger Woods PGA Tour 2006 kept me company through the tour!'

Using the Xbox Live online service users can download a selection on Robbie's videos: the claymation, 'A Place To Crash', Rudebox's 'Lovelight' and latest single , 'She's Madonna',

The downloads are available from the Xbox Live marketplace for 230 Microsoft Points and Robbie Williams themes (which include four images) are charged at 150 Microsoft Point per theme.
