

Archive: New Album and London Show - 2007-05-29

Archive's new album, 'Live at the Zenith', is currently being released in Europe.

The album features unforgettable live performances of 'System', 'Noise' and the phenomenal wall of sound, 'Lights', all recorded at the sold-out Zenith Arena, Paris on 20/01/07. A limited edition of the album is also available on DVD/CD and includes a documentary and extra tracks.

The band are also set to headline their second UK date of the year on Monday, 4th June, at Dingwalls in Camden. Following on from their sold-out performance at London's Club Fandango at The Borderline in April, Archive will perform a full headline set with support from Terry Hall (DJ set) and electronic act, Metsuo.
